

Quarter 3 Content

This quarter the Hamsters will focus on Earth science. We will be looking at Chapters 7 and 8. In Chapter 7, we will discuss weather, the water cycle, and climates/seasons. In Chapter 8, we move into exploring the Sun, the Moon, and the Earth. Further, we will get into the different planets and stars. I'm excited to develop these ideas because they are more interesting and lends themselves to more hands-on activities.

The main ideas for each of the chapters are as follows:

Chapter 7—How does the weather where you live change throughout the year?

Lesson 1—Weather

Lesson 2—The Water Cycle

Lesson 3—Climate and Seasons

Chapter 8—What objects move through space, and how to they move?

Lesson 1—The Sun and the Earth

Lesson 2—The Moon and the Earth

Lesson 3—The Planets

Lesson 4—The Stars
